A FEW OF OUR 3YR. SEEDLINGS

Abies balsamea (Balsam Fir)

Balsam Fir as a mature ornamental isn't of much value, but until it gets to a height of about 20 feet it is a beautiful tree. However its real value is in growing it for Xmas trees because of its fir fragrance and its needle holding characteristics.

FERNs

Also known as Ostrich Plume fern. One of the best of the hardy fern. Grows to a height of from two to four feet every year dying back to the root every fall after a hard frost. Ideal for shady spots and secluded nooks.

Our roots are all No. 1 grade, - large and husky. We have these in storage and they can be shipped any time during the winter. Make an excellent over the counter winter item to sell, as many people pot them and plant inside.
